maximise your loads

(Un)load your ladders effortlessly using the manual-tilt ladder rack that is easily fitted to the roof bars. Easy-to-fix swan neck or standard towbars let you tow a trailer or carry the equipment you need. And when you need it, go for the mixed hook so that you can tow with an anchor ring.

protection

improved sturdiness

Inside, go for the wooden rack kit, a practical and easy-to-install storage solution to keep your equipment handy. To protect your loading area against heavy and dirty loads there are our wooden guards. Working in a damp environment? Choose the non-slip polypropylene guards. Designed to leave storage hooks accessible, both these types of guard allow you to work in optimal conditions. Outside, once fitted with rear mudguards, your Express van will be invincible.

safety

drive with peace of mind

Want greater visibility? Go for a continuous rear-view camera to keep a check on your surroundings, even in a panel vehicle. Parking? The rear parking sensors are there to warn you of a possible collision with an obstacle or another vehicle. For greater peace of mind, why not include safety stickers so you can be seen from afar? And a manual foldaway triangle could be vital for signalling your presence to other motorists. Lastly, install a driver's seat fire extinguisher to put your mind at rest.
