## cables and storage areas

Everything is simple when everything is electric. As standard, the 5m mode 3 charging cable is used on wallbox home charging points (1 h 10 charge/50 km range) and public charging points (24 min/50 km). For even more options, this cable is available in a 6.5m version as an accessory. Add the occasional domestic cable adapted to standard sockets (3 h 50/50 km). And for even greater convenience, get the special cable storage bag, cable handle or cable tie.

# increase your vehicle's sturdiness

Equipped with front and rear mud flaps, the underbody of Renault Kangoo Van is well protected. Inside, the premium and standard wood trims are designed to leave the lashing hooks accessible and effectively protect the loading area. The innovation polypropylene floor goes even further: its non-slip coating prevents you from slipping when you load or unload your vehicle.
